- **For customers ordering the whole UBCM Collection**

### Key

Question	
Answer	
Action	
Next step	
Start / Finish	

\* Knowledgebase Collections are updated monthly and new records should be available for download at the beginning of each month.

\*\* UBCM customers should make a custom text note in their records to tag UBCM titles. When the subscription is up, they can remove these titles from their local systems by searching for records with the same custom text. See page 15 of the [Wiley MARC Guide](#) for directions on inserting record tags.

\*\*\* Records typically are generated in an output file and delivered 24-48 hours after the collection has been selected and MARC record delivery has been enabled. Customers can receive notifications via reporting. For instructions on reporting configuration, please see page 9 of the [Wiley MARC Guide](#).
